What you earn (paid at settlement unless noted)

Item	Amount
Fee	$10,000–$35,000 (cash, shares or both; paid when both confirm, or the $22,500 default at 01:05)
Plan bonus	$500 × (plan score − 50): −$10,000 to +$25,000
Deal bonus	$5,000 if fully signed by 02:45
Calls	$2,500 per correct call, 6 calls, up to $15,000

Think about it this way

- The plan bonus is the biggest swing: plan 90 = +$20,000; plan 40 = −$5,000. The deal must be signed by 03:00 or the plan is capped at 50 (bonus $0).
- Fee shares are worth more if the company recovers. Cash is safe.
- A fee of $33,000+ or a deal at ≤55% of the post-crisis price with a plan below 50 raises a collusion flag.
- Calls: BUY is right only if the price ends **above** the baseline; equal counts as wrong. You can change a call until it closes.
